LISHA KILL - KINGS ROAD AREA DRAFT GENERIC ENVIRONMENTAL IMPACT STATEMENT

SECTION I

PROJECT DESCRIPTION AND NEED	I-1
A. Existing Conditions	I-1
B. Project Need	I-2

SECTION II

SOCIOECONOMIC AND ENVIRONMENTAL SETTING AND IMPACT ANALYSIS

A. Demographics	II-1
B. Land Use and Zoning	II-5
C. Geology, Topography, and Soils	II-15
D. Vegetation, Wildlife, and Wetlands	II-22
E. Surface and Ground Water	II-33
F. Hydrology and Drainage	II-38
G. Utilities	II-50
H. Transportation	II-67
I. Air Quality	II-81
J. Noise	II-83
K. Historical and Archaeological Resources	II-86
L. Recreation and Open Space	II-92
M. Municipal Services	II-95
N. Visual Resources	II-100
O. Economics	II-108

SECTION III

ALTERNATIVES	III-1
---------------------------	-------

SECTION IV

CUMULATIVE AND GROWTH INDUCING IMPACTS	IV-1
---	------

SECTION V
IRREVERSIBLE AND IRRETRIEVABLE
COMMITMENT OF RESOURCES V-1

SECTION VI
UNAVOIDABLE ADVERSE ENVIRONMENTAL IMPACTS VI-1

SECTION VII
FUTURE SEQR ACTIONS IN THE STUDY AREA VII-1

SECTION VIII
REFERENCES VIII-1

LIST OF APPENDICES

APPENDIX 1
Correspondence

APPENDIX 2
Scoping Document

APPENDIX 3
Pre- and Post-Development Flow Calculations

APPENDIX 4
Literature Review and Archaeological Sensitivity Assessment

APPENDIX 5
List of Common Wildlife Species

APPENDIX 6
Fiscal Impact Analysis Worksheets

GLOSSARY OF SELECTED TERMS

Airport Area GEIS - A Generic Environmental Impact Statement prepared in 1991 for an 8,500 acres surrounding the Albany County Airport.

ACEMC - Albany County Environmental Management Council

CDRPC - Capital District Regional Planning Commission

Capital District Transportation Committee (CDTC)- CDTC in cooperation with the New York State Department of Transportation and the Capital District Transportation Authority, is responsible for carrying out the transportation planning process for the Capital District Region. General studies and transportation models developed by CDTC played a major part in the evaluation of land use and transportation issues discussed in this DGEIS.

COE - Department of the Army, Corps of Engineers

DGEIS - Draft Generic Environmental Impact Statement

Developable Land - As the term is used here, it refers to all land that is not inhabited by NYSDEC or federally protected wetlands, protected Pine Bush habitat or under public domain. Lands under public domain included lands owned by the Nature Conservancy, the Town of Colonie or New York State and included in the Albany Pine Bush Preserve

Full Buildout Scenario - The term used to describe the maximum development potential of the Study Area. Based on the amount of developable land, that is, land free of wetlands and/or protected Pine Bush Habitat and not under public domain, a total of 1,300 dwelling units, 1,500,000 commercial gross square feet (gsf) , and 6,000,000 gsf of industrial space is projected under the Full Buildout Scenario.

NMPC - Niagara Mohawk Power Corporation

NYNEX - New York New England Telephone

NYSDEC - New York State Department of Environmental Conservation

NYSDOH - New York State Department of Health

NYSDOT - New York State Department of Transportation

GLOSSARY OF SELECTED TERMS
(continued)

NYSOPRHP - New York State Office of Parks Recreation and Historic Preservation

Planning Period - The twenty year period from 1995 through 2015.

Projected Growth Development Scenario - A growth scenario that projects, over the course of the twenty year planning period, 660 dwelling units, 750,000 gsf of commercial space and 3,000,000 gsf of industrial space could be developed in the Study Area.

SEQR - New York State Environmental Quality Review

Study Area - the 5,800-acre area bounded by the Towns of Guilderland to the south, the Towns of Rotterdam and Niskayuna and the City of Schenectady to the north, and the Village of Colonie and the Airport Area GEIS to the east.
